

Village Missions Contenders Discipleship Initiative

Syllabus

Course: The Church (Ecclesiology - Church History – History of Christian Doctrine)

Instructor: Pastor Russell Richardson
(Pastor/Teacher: Sauvie Island Community Church)

Overview: This course gives students knowledge, perspective and resources to help them understand what the Bible teaches about The Church, as well as how The Church and Christian doctrine have developed through the years.

Upon completion of this course, you should have a solid foundation and understanding of God's purpose for the church, as well as how the church should function. You should see that the church has always been in need of reform and that in the midst of our humanity and failure, Jesus Christ has and will continue to build His church (Mt.16:18).

As we see the struggles and the sacrifices made by those who contended for the faith and did the hard work involved in developing the doctrines into the form we have today; you will have a great appreciation for their work and for God's sovereignty in preserving the truth for us.

There is a famous saying related to progress, reform and the study of history: "Progress, far from consisting in change, depends on retentiveness. When change is absolute there remains no being to improve and no direction is set for possible improvement: and when experience is not retained... infancy is perpetual. **Those who cannot remember the past are condemned to repeat it.**" *The Life of Reason (1905-1906) - Vol. I. Reason in Common Sense* – George Santayana
